

Our Ref: ECSL/EWG/Guide/028

Date: 11-10-2024

To Whom It May Concern,

I am writing to extend my heartfelt appreciation for the remarkable contribution made by an undergraduate volunteer on the preparation of "Guide to Proper Domestic Electrical Installation" for electricians. His dedication and leadership as the Member of the Sinhala Translation Team have been pivotal to the success of this project.

Undergraduate: Lelkade Lokuge Deshan Sewinda
Undergraduate Reg No: EG/2021/4807
University: University of Ruhuna

His commitment to excellence and tireless efforts have not gone unnoticed. The "Guide to Proper Domestic Electrical Installation" is a publication authored by the Electrical Work Group of ECSL with the collaboration of an editorial board and dedicated volunteers.

The Guide was officially launched at the Techno exhibition 2023, the largest and only engineering and technology exhibition held annually in Sri Lanka by the Institution of Engineers, Sri Lanka. This manual was prepared in three languages: Sinhala, Tamil, and English.

On behalf of the Engineering Council, Sri Lanka, I wish to express our deepest gratitude for his exemplary service. We are proud to have someone of his caliber on our team, consistently striving to make a meaningful impact.

Yours sincerely,

Tilak De Silva
Chairman
